

CUSTOM BUILT PAVILIONS & PERGOLAS

by Sunrise

Your Backyard Solid Timber Structure Specialists
Where Quality is Standard

ABOUT US:

Sunrise is a small family business employing 5 people located in Eastern Holmes County.

At Sunrise, we stock most of our timbers, which allows us to stand out in a very competitive market. We are confident that our way of processing our timbers is the first step in a quality structure. Although all solid timber structures are subject to some natural checking as they age.

The last step which is staining and sealing may be overlooked by a lot of people. We at Sunrise realize we spend twice as much time staining and sealing as our competitors, but in the end it's you that benefits.

OUR PAVILIONS ARE AVAILABLE IN 3 DIFFERENT STYLES
